Trip Report

Comox Lake Bluffs (hiking) [return to Reports list](#)

Sun Apr 07, 2013

Leader: **William Wright**

Co-Leader: **Harold Osborne**

Nice loop around the bluffs on the north side of Comox Lake and the 10 AM start provided for a wee bit of a Sunday sleep-in as well as the robust pace set allowed all back to the dinner table for their evening meal.

The 15 K + trek climbed more than 300 M from Bevan and was completed in just over 5 hours - the crew was not one to suffer long breaks nor naps and consistently spurred the beleaguered leader on.

Not one to complain, I was thoroughly thankful for another day of S2S training - sometimes help can come from the most unexpected places.

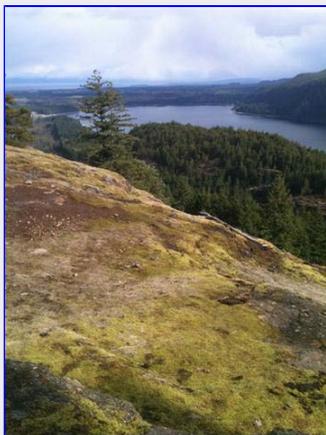

Always a good day, especially in the hills and a bonus with a better than anticipated forecast along with an enthusiastic group.
