**Tree Island** (other) [return to Reports list](#)

Fri May 20, 2011

Leader: **Terry Fright**

Co-Leader:

Another sunny day on Tree Island.

We managed to remove most of this years blooming broom but will be going back to finish the job in a few weeks; maybe a camp-over.

We had a lovely trip over in the "Tarragon" with skipper Espen.

The wildflowers were gorgeous and include larkspur, field chickweed, sea blush and chocolate lilies.

If Melda Buchanan (and many helpers since) had not declared war on broom many years ago these beautiful meadow flowers would have been overtaken by the invasive broom plants. This is why we always end the day with a toast to Melda with blackberry wine. (her original recipe)
