## Trip Report

**Rosewall Creek** (hiking) [return to Reports list](#)

Sun May 06, 2012

 Leader: **Sandra Crawford**

Co-Leader:

The trail up Rosewall Creek is perfect for a short outing on a fine day such as this was. Although it is only an hour's stroll to the waterfall, the path takes you through fine old timber with a pleasant stream always nearby.

Otto mentioned that Rosewall would have steelhead in it at this time of year... he would know not only as an avid fisherman, but because he, Don Apps, Ruth Masters, and others built the trail many years ago. They did a good job of it too, as not very much was needed to be done this year. Essentially we went for a walk with our shovels, clippers, and saws. The only action was when Don attacked a four inch deadfall... and with good advice from the rest of us went through it in no time at all.

The trail is now ready for the hordes of summer looking for a place to hide from the heat. Thanks Sandra for taking this on for the last several years. More trail maintenance parties to come this summer. Try one... they're fun, and bring good karma.
