**Seal Bay Park Trails** (hiking) [return to Reports list](#)

Sun Oct 12, 2014

Leader: **Otto Winnig**

Co-Leader:

---

Thirteen hardy folks showed up for a morning wander through Seal Bay's many trails, otherwise known as Otto's backyard. Although we didn't see much wildlife, there were many mushroom species along the way; some were desirable edibles. It's possible some harvesting took place, we can't be sure. All we know is that Don had his hands full getting everyone to reconvene at each junction. Our lunch break was at the Swamp, which has convenient benches and an outhouse. There are two resident beavers at the swamp, they have begun chewing on a nearby red alder. Rain started falling heavily during our lunch break, so people decided to call it a day and headed back to the cars after we ate. Many thanks to Otto for sharing his extensive knowledge of the park with us.

---
