Trip Report

Mt. Washington Mine (hiking) [return to Reports list](#)

Sun Sep 05, 2010

Leader: **Bucky Buchanan**

Co-Leader:

Bucky led us on an interesting hike to the environs of the Mount Washington mine site. We did not go directly to the site however did get to an overlook which allowed us a pretty good view of the new cap that is being put on the mine. Although many of us had skied on the trails we walked on Sunday, it was a new experience to see these trails in the summer with lots of flowers and blueberries. Don even saw a marmot having a snack.
