### Legendary Komox Glacier (hiking)

[return to Reports list](#)

Sat Aug 27, 2016

Leader: **Raelene Bliskis**

Co-Leader: **William Wright**

### Aug 27 trip to Glacier

Our hike to to the Glacier began at Harmston just before 6 am. Two CDMC vehicles made their way to the trail head. Previous reports of the road conditions were that a car would be able to make the trek. Recent logging activity close to the trail head had made the road impassable for my car. We decided to leave it off to the side of the road and continue on in Linda's truck. We started on the trail at 7:45am. Halfway up the ridge we decided to split our group into two smaller groups to accommodate different paces.

Hiking up the ridge was done within 2 hours. Our group hiked along the trail with beautiful views under blue skies. Just before the ascent of black cat mountain at 1230 a group member was unable to carry on up to glacier. After a short collaborative chat we decided the remainder of the group would carry on while the two of us nested in the Heather.

By 520 pm the remainder of the group returned and we carried on back to the trail head. As the pictures show the views from the glacier were fantastic.

By 8:15 pm we returned to the cars. We all returned to Harmston by 930 pm. Overall our one day glacier trip was A great day. Thank you to everyone who participated.
