Carey Lakes Work Party (other)

[return to Reports list](#)

Sun Sep 14, 2014

 Leader: **Tim Penney**

Co-Leader:

Carey Lakes trail work party - Sunday, September 14.

Nice to see such a good turnout for a trail work party. In addition to the work crew we had two additional club members, Karl Stevenson & Steve Millar, who were in need of a ride up to the Carey Lakes trailhead for the start of their trek back to Mount Washington.

Steep roads on the drive in, but in good condition. We stopped to check out the excellent view to the Comox Glacier and the Cruickshank Canyon on the way in. Trailhead at 9:40. Excellent job of clipping through till 2:00PM with lunch and water breaks to ease the clippers cramps. We took a 30 minute break at one of the lower Carey Lakes and started our return trek at 2:30. Back to the vehicles on the well clipped trail by 3:20.

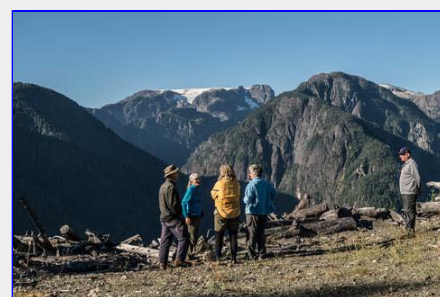

Thanks to all who turned out for the work party, an essential part of our club activities, and not as daunting as it might seem. Regular work party trips are actually fairly slow paced and really help to keep our access to some beautiful destinations more available for future trips.

The clearing done on this trip will certainly be appreciated when we do the hike in next Sunday.
