Event Report

Royal Lepage Snow To Surf Adventure Relay Race (event)

[return to Reports list](#)

Sun Apr 26, 2015

Leader: **William Wright**

Co-Leader: **Ken Rodonets**

Another year behind us and still no moss collecting - the Mutineers waged a fair battle and escaped with another admirable finish in the Royal Lepage Snow to Surf, one of the countries largest adventure relay races (we weren't last although some were willing to debate that point!).

Conditions were not what one would call ideal with the start of the alpine legs enduring minus 1 temperatures and only marginally better at sea level as participants were buffeted by driving winds which forced the cancellation of the canoe leg.

There was quite an adjustment to the race with no snow on the alpine legs coupled with the day's inclement weather forcing the event to take on a much different look this year

Rains interrupted the afternoon celebrations at the Comox Marina Park and the best part of the race, our annual Black Fin Feast, was moved up an hour to avoid further exposure to a less than stellar day.

We had some marginal improvements on varying legs of our race, this year, compared to some of our efforts from last year and with a few more tweaks, who knows, we may find ourselves on the podium (again), next year.

Some of our best team improvements were that the entire lot made it to the pre-race meeting, everyone managed to find their way to the starting line, we completed the race without injury and our team does throw the best debriefing party (is there an award for that?).

Thanking all my mates for a fine showing and especially to Tim who records our effort - We'll be Bak!
