Rosewall Creek (hiking) [return to Reports list](#)

Sun Apr 09, 2017

Leader: **Juanita Wells**

Co-Leader: **Janet Beggs**

At about 9am everyone left the parking and headed up stream towards the first highway over pass. Continuing on under the second over pass beneath surprisingly sunny skies our first challenge of the day presented itself shortly thereafter. With water levels being a tad bit on the high side currently, the first creek was too high and deep to wade through. Thankfully a well placed windfall created a natural bridge that most took advantage of. Carrying on and not too far up the trail to the area where the Rosewall usually floods onto the trail, we encountered another fairly wide but relatively shallow creek. Some opted for wading across while others choose to try out the upstream log jam. Eventually all gathered again and continued on up the trail towards the falls. Other than some new windfalls and limb debris the trail was easily navigated the rest of the way to the falls. After an early lunch rest at the falls the group headed back under turning skies and safely navigated the creek crossings and arrived back at the vehicles at approximately 12:30.

Crossing on a log
