Trip Report

Comox Lake Bluffs (hiking) [return to Reports list](#)

Wed Jun 19, 2013

 Leader: **Michele Hind**

 Co-Leader: **Krista Kaptein**

14 of us headed out on Bear Bait Trail from the Comox Dam after arriving by car, by bicycle and just in the nick of time. 14 returned 10 km and 4 1/2 hours later. We enjoyed all that the Puntledge trails, the side hill, the Arbutus Ridge and Comox Lake Bluffs had to offer. It was a varied route with some flat in the cool woods by the river, some hills fighting ferns, a little logging road up hill then out onto the ridge to enjoy the wild flowers and the view. We headed down to the logging road and up on to the Comox Lake Bluffs where we enjoyed lunch, naps and a wonderful view down the lake. We ended by meandering through the Ecological Reserve and then back to the parking lot. A great day. A great group of hikers. Thanks for the great photos Krista and William
