Boston Ridge Work Party (other) [return to Reports list](#)

Sun Sep 07, 2014

Leader: **Otto Winnig**

Co-Leader:

A hardworking group of 6 cleared 2 kilometres of the Boston Ridge trail in 1000 foot of elevation gain. With temperatures up to nearly 30 degrees in the sun we appreciated the more shady sections of the trail, but still found it thirsty work.

We cleared the trail from a logging road to a high point on Boston Ridge just before dropping down into the gully proceeding the climb to Mount Becher. We stopped for 20 minutes to relax and enjoy the views from our high point. The abundance of blueberries and huckleberries provided us with some much needed energy whilst snipping away.

On the way back down to the vehicles we were able to appreciate the excellent clearing job that this energetic team had completed.

Thanks to all of you who turned out to help on this work party. I am sure that it will be much appreciated when we do our full Boston Ridge/Mount Becher trip on October 5th.

Report contributors: Tim P,

Participant list (6 of 6): Mary F, Jack F, Don K, Tim P, Karl S, Otto W,
