# Trip Report

## Newcastle Island (hiking)

[return to Reports list](#)

Wed Sep 22, 2010

Leader: **Chris Carter**

Co-Leader:

We were fortunate in having a "Beautiful Fall Day" for this hike. Postponing the previous week when it rained worked !

Next time we make this trip we will linger and explore the western beaches more thoroughly. We completed the circuit sooner than was necessary. The highlight of the day was watching a large family of coons. First sighted scavenging along the tide line, we watched them scurry up to the trees and disappear one by one into a hole in the base of a huge Garry Oak.
