4 Risks

5 Procedures

Medical emergency Provide any care you are trained to administer.
Contact 911 if evacuation is needed.

Vehicle accident or breakdown Assess all parties for medical emergencies, treat if necessary. Attempt minor repairs if possible.
Contact towing company for removal.
(Georgia Straight 250-338-9899)

Fire	Attempt to control small fires with water, dirt, shovels or pails if available. If fire is not under control contact Coastal Fire Service. Make sure all persons are aware of the fire and in a safe place. Any burn injuries phone 911.
Lost	Ensure all others are accounted for. Try contacting lost party via cell or 2 way radios if possible. Initiate quick search ensuring that no others get lost. Call home of missing to ensure they didn't leave early.
Weather	Watch for unexpected hazards. Ensure that all participants remain together. If safe, ensure that all participants remain with vehicles until help arrives. Contact emergency services for extraction if roads and/or trails are impassable.
6 First Aid	Be aware of who has first aid training on your trip or work party.
7 Equipment Check List	
First Aid Kit	Type/Level required
Water	
Personal gear	Including but not limited to: single or multiday backpack, whistle, food, GPS, maps, compass, warm clothing and shelter items. **See CDMC guidelines for essentials list**
Cell phone	Confirm it can be used in area.
Personal Locator Beacon (PLB)	If available.
8 Tailgate Meeting	
Identify first aid person	Identify Leader & Co-Leader (if applicable).
Review safety plan.	Identify check in/out procedures to ensure that all will be accounted for.
	Review direction of travel, potential hazards, safety equipment & where to get emergency help and numbers.
